

If you are visiting us by car, please note that if you use our postcode then online maps and other satellite navigation systems may take you to Oakway, a road outside our industrial estate with no access to our premises.

We therefore recommend that you follow our detailed map and instructions when you get close.

- Navigate to the A331 which runs north-south between the M3 and the A31.
- Exit the A331 onto the A323 heading west towards Aldershot.
- At the first set of traffic lights turn left into Blackwater Way and then take the next right and continue along Blackwater Way.
- Follow the road around a bend to the left and then just before the road bends to the right you will find the entrance to Beck Industrial Estate on your left-hand side.
- Drive through the gates and as you pass the building on your right, turn right around its end and follow the road, turning left and then right between the buildings.
- This will bring you to our reception door on your right-hand side where you can park in front of the building.
- If you cannot find a parking space outside, then come to reception and we will advise you on where to park.
- Please take care when driving through the industrial estate as there may be movements of large vehicles.
